# Push-Ups

Begin in push-up position, on knees or toes. Perform regular push-ups, abs in and back straight.

Push-ups can also be done vertically with hands on the walls and legs positioned out behind the body.

# Crunches

Begin by lying face up on the floor with knees bent in the air. Curl the shoulders towards the pelvis and lift your shoulders up off of the ground. The hands can be behind or beside the neck or crossed over the chest.

# Arm Circles

Stand up and extend your arms straight out to your sides. Your arms should be parallel to the floor. Slowly start to make circles with your outstretched arms. Continue the circular motion, then reverse the movement to the opposite direction.

# Bicycle

Lie face up with lower back pressed to the floor. Lightly touch your head above the ears with elbows out, and bend right knee, pulling it towards your chest while touching the knee with the opposite elbow. Begin a slow pedal motion by touching opposite elbow to opposite knee, alternating each side. Keep the abs pulled in and breath continuously.
